REP. STRIPP ANNOUNCES STATE HISTORIC PRESERVATION GRANT FOR EASTON

EASTON- State Rep. John Stripp who represents Easton today announced that the town of Easton has been awarded a \$9,625 grant from the Connecticut Trust for Historic Preservation.

Funds will be used for Phase II of the Town of Easton Cultural Heritage Survey. This comprehensive survey of the historic and pre- historic resources located in Easton will enable the town to make informed and conscientious decisions as it confronts increasing land development pressures and will also enable it to account for such history in its long-range planning.

“I am pleased that this funding will be used to help Easton explore its historic assets. Developing a long-term plan with this survey will be a vital key,” said Rep. Stripp.

“This is significant news for the people of Easton,” said State Representative John E. Stripp, 135th District. “I was pleased to be of help in successfully securing this grant money for our town.”

In May 2008, the Connecticut Trust for Historic Preservation awarded a total of \$255,725 in Historic Preservation Technical Assistance Grants to 24 non-profit organizations and municipalities from across the state.
